

TODAY'S REPORT

Employee Attendance System-<http://16.171.67.17:8082/>

The screenshot shows a web browser window displaying the Employee Attendance System interface. The browser's address bar shows the URL <http://16.171.67.17:8082/>. The page has a light blue header and a main content area with a white background. At the top, there's a section titled "Punch In/Out" with a text input field containing "ats0111". Below this are two large buttons: a green "Punch In" button and a red "Punch Out" button. Underneath these buttons are three tabs: "Today" (selected), "This Week", and "This Month". Below the tabs is a search bar labeled "Search employees...". At the bottom, there's a summary box for the selected employee (ID: ats0111) showing the date (10 Mar 2025), punch in time (15:12), punch out status (Not punched out), and duration (Active). A green "Punched In" status indicator is also visible. The Windows taskbar at the bottom shows the system time as 15:12 on 10-03-2025 and the temperature as 32°C.

It accepts the wrong Employee I'd also.
In a day it's accepted so many times with the same
Employee I'd.
